Oleksandr Huzei e

Senior Frontend Developer / Frontend Team Lead (Vue.js, Scalable Web Apps)

Remote (EMEA) | +45 55 24 42 18 | alex.guzey@gmail.com | linkedin.com/in/alex-guzey | github.com/bestkolobok

SUMMARY

Staff-level Frontend Engineer with 8+ years of experience building scalable web applications and developer tooling with deep expertise in TypeScript, Vue.js (Vue 2 and Vue 3), and API integration. Proven track record leading frontend architecture and modernizing legacy codebases, including Vue 2 to Vue 3 migrations. Experienced in leveraging AI-assisted development tools to accelerate delivery while maintaining high code quality. Skilled in collaborating cross-functionally to build reliable, user-focused products. Passionate about building AI-powered workflows and improving developer experiences through iterative, data-driven improvements.

CORE SKILLS

Languages: TypeScript, JavaScript

Frontend: Vue.js (Vue 2, Vue 3), Pinia, Vuex, Vue Router, SCSS/SASS, Tailwind CSS, Responsive Design, Component-driven Development, Design Systems, Storybook

Backend: REST APIs, Axios

DevOps: Webpack, Vite

Tools: AI-assisted Development, Code Review, Legacy Code Migration

EXPERIENCE

Warp Jump Company | Frontend Team Lead / Architect

Feb 2024 - Dec 2025 | Remote

- Led frontend development for a high-traffic, merchant-facing digital platform built with Vue 3 and Nuxt 3.
- Owned frontend architecture and guided the team through complex feature development and refactoring.
- Migrated and modernized legacy frontend patterns toward Vue 3, Pinia-style state management, and modular components.
- Built and maintained shared component libraries and documented them with Storybook.
- Collaborated closely with backend engineers on REST API contracts and data flows.
- Used AI-assisted coding tools to speed up development while enforcing strong code review standards.

Tech: Vue 3, Nuxt 3, Pinia, Storybook, REST APIs, AI-assisted Development.

AIR Media-Tech | Senior Frontend Developer (Frontend Tech Lead)

Apr 2021 - Jan 2024 | Remote

- Developed and maintained customer-facing dashboards, billing flows, and internal tools using Vue 2 and Vue 3.
- Contributed to gradual migration from Vue 2/Vuex toward more modern Vue 3 patterns.
- Implemented reusable components, forms, and validation logic using component-driven principles.
- Worked closely with backend teams to integrate REST APIs and ensure consistent data handling.
- Improved codebase quality by refactoring legacy areas and introducing clearer frontend conventions.

Tech: Vue 2, Vue 3, Vuex, REST APIs, Component-driven Development.

Open Public Finance | Frontend Developer

Jul 2018 - Mar 2021 | Kyiv, Ukraine

- Built and maintained large Vue-based applications used by 100k+ users.

- Implemented complex UI logic, responsive layouts, and state management with Vuex.
- Delivered PWA functionality and maintained long-lived frontend codebases.

Tech: Vue, Vuex, PWA, Responsive Design.

OPEN SOURCE & SIDE PROJECTS

Mullion - TypeScript + ESLint guardrails for safer LLM features (author).

vue3-ts-jsoneditor - Vue 3 JSON editor with TypeScript support.

nuxt-jsoneditor - Nuxt module for JSON editor integration.

EDUCATION

Taras Shevchenko National University of Kyiv - Master's Degree, Laser and Optoelectronics Technologies (Jan 0001 - Present).

GOIT - Other, Frontend Advanced Course (Jan 0001 - Present).

Vertex Academy - Other, Frontend HTML/CSS Course (Jan 0001 - Present).

LANGUAGES

Ukrainian: Native | English: Intermediate | Danish: Beginner
